Programming Logic

The Art Institute - GWDA123

Final	*Final Site:* Create a 2 page website: One page about the mini-game and the other for the mini-game. Be to create original content that is appropriate for your idea. The jQuery powered mini-game must be built by you, no plug-ins allowed.	
HTML & CSS	Proper HTML & CSS over the 2 documents. Be sure to center your layout using the margin auto left and right technique.	30pts
Original Idea and Content	Create an original idea to skin the mini-game. Spend some time create images and type this concept to be utilized throughout the site.	40pts
jQuery driven mini-game	**The jQuery mini-game requirements:**	
	A click event that animates an object.	20pts
	Two image changes, at least one of which corresponds with the animated object.	20pts
	Points are added up every time this action is completed using a var.	20pts
	A "You Won" event occurs after a specific amount of points using an if statement.	20pts
	A "Play Again?" Lightbox that resets the game.	20pts
Execution	The game must run as smoothly as possible. Try to get the timing, events, changes, etc. to interact as seamlessly as possible.	30pts

30% of final grade, **Total:** **200pts**
