# Programming Logic

**The Art Institute - GWDA123**

---

**Assignment 8**    *Start Coding*
You should be well underway with the needed coding. Refer to the outline for what the requirements are. We will review any questions/issues in class.

Focus on the mini-game page FIRST. Try to get it styled and laid out as perfect as possible.

**DO NOT start coding any jQuery UNTIL you are done styling and laying out your page.**

| | | |
|---|---|---|
| **Basic HTML and CSS** | Doctype, head, link to the external style sheet, styles and body, tags should all be in place. | 30pts |
| **CSS styling** | Your CSS should be well underway. Branding and layout needs to be clear and consistent. | 30pts |
| **Content** | All content needed to be used by your mini-game must be completed, and either in place or on file. | 30pts |
| **List of Changes** | Create a checklist of edits/issues you would like to address in order of priority. *Submit this in a jpg or pdf format.* | 10pts |

*6% of final grade,* **Total:**    **100pts**
