Assignment 5   *Final Concept*

Using (or based on) the Photoshop template provided, Create 2 Style Tiles for your final project.

Include an extra file that visually storyboards the basic steps that occur in the mini-game you plan to create. Do not go into to much detail with this. Simple step by step sketches with some notes should be more than enough.

-Save these files in JPG or PDF format for viewing.

*Note: Refer to the final outline to make sure your site idea can meet all the requirements stated.

Concept	Discuss the idea for your website and game. Think about what creative element you can implement to make it unique.	20pts
Style Tiles	Using the Style Tile outline, create 2 visually different directions. Focus on variation. You will loose points if you repeatedly use the same typeface/colors/etc.	40pts
Mini-game storyboard	Create a storyboard that shows the step by step of what you plan to have happen in your mini-game. These steps must be accumpanied with an image and notes on what is happening in each step. Think about how you might be able to pull it off using your level of jQuery.	20pts
